CLARENCE E. GILMAN PRINT  
Belmont, N. H.

# TOWN WARRANT.

## THE STATE OF NEW HAMPSHIRE.

*To the inhabitants of the Town of Belmont, in the  
(L. C.) County of Belknap, in said State, qualified to  
vote in Town Affairs.*

You are hereby notified to meet at Hall's Hall in said Belmont on Tuesday the thirteenth day of March next, at nine of the clock in the forenoon, to act upon the following subjects;

Art. 1. To choose all necessary Town Officers for the year ensuing.

Art. 2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation of the same.

Art. 3. To choose one trustee of trust funds for three years.

Art. 4. To see how much money the town will vote to raise and appropriate for the building and repairs of highways and bridges for the ensuing year.

Art. 5. To see how much money the town will vote to raise and appropriate for the maintenance of its Public Library for the ensuing year.

Art. 6. To see if the town will vote to raise and appropriate a sum of money for Memorial Day, and if so, how much?

Art. 7. To see what the town will vote to do with its parsonage fund.

Art. 8. To see how much money the town will vote to raise and appropriate for lighting its streets for the ensuing year.

Art. 9. To see if the town will appropriate a sum of money for the observance of Old Home Week.

Art. 10. To see if the town will vote to avail itself of the provisions of the law passed at the 1905 session of the legislature, entitled "An Act to provide State Aid and for expenditure of money in the permanent Improvement of Main Highways throughout the state," and if so to see how much money the town will vote to appropriate for said purpose.

Art. 11. To see if the town will vote to authorize the Selectmen to distribute the blank inventories at the time they examine and appraise the property to be taxed.

Art. 12. To see if the town will vote to raise and appropriate a sum of money for Band Concerts during the summer months

Art. 13. To see if the town will vote to allow a discount on all taxes paid on or before July 1, 1918, and if so how much?

Art. 14. To see if the town will raise a sum of money for Mosquito Bridge debt, if so, how much?

Art. 15. To see how much money the town will vote to raise to make repairs on its water works.

Art. 16. To see if the town will vote to discontinue part of the road laid out at Winnisquam.

Art. 17. To transact any other business that may come before said town.

Given under our hands and seal, this twenty-fourth day of February, in the year of our Lord nineteen hundred and seventeen.

FRANK H. JUDKINS,	}	Selectmen
HARRY W. ROGERS,		of
ERNEST N. SANBORN.		Belmont.

# SCHOOL REPORT

## REPORT OF THE SCHOOL BOARD.

TO THE VOTERS OF THE SCHOOL DISTRICT OF BELMONT:

With the appropriations there has been a school year of 36 weeks. Some of the rural schools have curtailed a week which will be added to the spring term.

We think the schools have been fairly successful the past year. Music has been added to the rural districts at a cost of about \$110.00 which we believe is money well spent. In accordance with your vote last year, a steam heating plant has been installed at the Gale school. We secured the services of Prof. R H Porter, mechanical engineer at the New Hampshire State College, to draw plans and advise us as to the requirements, with the results that the contract was let to F C Hall for \$1324.00 which with other expenses makes the total cost \$1,421 64. The system which is a one pipe, fitted with American Radiator Co's radiators and a sectional boiler, seems to meet the requirements, as the building has been kept warm all the time this winter. The present chimney is too small to get the best results from the boiler and we recommend that provision be made for a new one the coming year. We also would remind you that added heat means added cost for fuel. We still feel that there should be a sidewalk on School street.

We have the problem of the small school yet and we invite your consideration of uniting the Upper and Lower Province Road schools and building a new school house in some location convenient to both. Neither of the present buildings meet the requirements of today.

We submit for your approval the following amounts as necessary for the coming year.

Amount required by law	\$1,650.00
General school fund	1,900.00
High school tuition	800.00
Books and supplies	300.00
Repairs	100 00
Flags and poles	15.00
Estimated income from the State	
December 1 1917	1200.00

Respectfully submitted,

JAMES C. HILL	}	School Board
LILLIAN M. KNOWLES		of
CARLETON LAMPREY		Belmont.

## REPORT OF SUPERINTENDENT OF SCHOOLS.

To the School Board and Citizens of Belmont School District:

I herewith submit to you my second annual report as superintendent of schools.

The rearrangement of our school registers render it difficult to make an up-to-date statistical report in as many details as in former years. I refer you to the statistical table for certain matters which should be of interest. You will see that the salaries of several of the teachers have been raised. If we are to retain our good teachers we must pay them salaries comparable with those paid in other similar places. You will also notice that the enrollment at the Ladd Hill and Lower Province Road schools has been small for much of the year.

The total enrollment in all our schools for the year ending in June last was 228. The average membership was 199 and the average attendance was 184. There were 333 cases of tardiness. This is double what there should have been. Fourteen pupils were neither absent nor tardy for the year. The average length for all the schools for the year was 35 weeks. The superintendent made 193 visits to schools.

At the close of the year in June, twenty-two pupils completed the work of our schools and were granted diplomas or certificates and were judged qualified to take up work in schools of higher grade. Sixteen of these pupils were from the Gale school, three from the Union, two from the Lower Province Road and one from the Upper Province Road. You will note that six of these were from our rural schools. Graduation exercises were held on the afternoon of June 15. On the Sunday evening previous to the graduation a special service was held at the Baptist church at which Rev. Mr. Fitzpatric addressed the children. Of the number graduating eight entered higher school in the fall and are doing good work. While this is not a large per cent it is a commendable one.

There are now 22 children from Belmont in secondary schools about the same number as last year. There are 17 at Tilton Seminary, three at Laconia, one at New Hampton, and one at Gilmanton Academy. The larger part of the tuition charge for these children is an obligation which the school district has to meet and amounts in the aggregate to a considerable sum. There is a possibility of this increasing. At present the district is liable for a tuition charge of forty dollars only per pupil. If the tuition charged by the secondary school is more than forty dollars the individual parent must pay the difference. Proposed legislation now under consideration would raise the liability of the district to fifty-five dollars per pupil. This might tend to increase the number of pupils.

The school year of 36 weeks seems to have become a fixed thing for the village schools and we are tending toward that in the outside schools. If it is best for the village children, and I believe it is, it is equally so for the rural school children. I think the terms for the outside schools should be differently arranged because of the hardship in getting to school in the coldest and severest weather, but the aggregate number should be the same. In this connection I would suggest again the wisdom of making a school calendar. It would be of convenience in many ways if the date of beginning and ending each term might be known at the beginning of the school year in September. Of course exigencies might arise which would upset the plans. Nevertheless it would be worth while having the plan. This is a common custom in many school systems.

The success of the special instruction in music at the Gale school for several years under the direction of Miss Clifford, led the school board to try the experiment in the rural schools. Since the beginning of the school year in Sept. Miss Clifford has made a trip to the outside schools once in two weeks. The teachers and pupils have taken hold of this new work well. It has been a success. I want to commend especially the work that is being done at the Plummer school and the results.

It will surely not be amiss for me again to speak of the importance of inculcating and fostering habits of thrift in children. These are the times when the cost of living is high. These are also the times when many "mistake their capital for their income" Now our school savings system is designed to teach the boys and girls to save to encourage habits of thrift. It is of service to many of the children. It should be by more of them. It should perhaps, be the most valuable of all our special school activities. Arrangements should be made so that the children of the outside schools might have the benefit of it.

The new steam heating system installed at the Gale school seems to be meeting fully the demands made upon it. It appears to be a job well done. As far as I have been able to observe there has been no trouble at any time during the winter in properly heating the building. The next improvement which should be made in this building is the freshening and brightening of the walls and ceilings of the school rooms. I know that this is not a new suggestion, but the need of this being done is increasingly apparent. While we are making more comfortable and attractive our village building we should not be unmindful of the needs of our one-room school houses. There is a movement or campaign going on in the state for the improvement of school-house facilities, particularly one-room buildings. The state department recommends that a "survey be made of all the school buildings in a town with a view to entering upon a systematic

policy calculated within the next few years to put all buildings in a thoroughly sanitary and suitable condition," and that one school house be put in condition each year until the entire equipment of the district is made satisfactory. None of our five one-room buildings could be said to be "in a thoroughly sanitary and suitable condition." The Upper Province Road school-house is particularly unsatisfactory. The building is too small. There is no shed room. The toilet arrangements are bad. It has been suggested that the two Province Road schools be united and that a modern building be constructed on a site somewhere between the two present buildings. This may be the wise thing, and is certainly worthy of consideration and discussion.

But three changes have been made in our teaching force since the last report. Miss Bickford resigned just before the opening of the spring term and Miss Mollie K Dearborn of Canterbury was chosen to fill the vacancy. Miss Dearborn is a graduate of Plymouth Normal school. She is making a success of her work. Miss Vernabelle Harding went to the Upper Province Road and Miss Nellie Piper to the Lower Province Road school at the beginning of the year in Sept. Miss Piper was without experience. She has manifested a fine spirit, eager and willing to take and use suggestions. Miss Harding in her work shows the result of some previous experience and training at a summer school. More and more is the demand being made for trained teachers and the time is not far distant when training will be one of the requisites for teaching in New Hampshire. I believe we should encourage our home girls who are especially adapted to this work to go to a normal school that they may come back to us fitted for strong work in our schools. These girls would know the local conditions and our particular needs better than others.

I recommend to the board that when teachers are hired that there be a definite written contract signed. This is nothing more than good business and is a matter of justice to both parties. I further recommend that in case of teachers in rural schools it be distinctly agreed that they remain at the schoolhouse during the noon hour. I do not need to go into a discussion of the need and advisability of the teachers presence. It is quite apparent.

The increased cost of living makes itself felt in the administration of schools as every where else. School paper is now selling for more than three times what it was eighteen months ago. Ordinary arithmetic paper so-called we formerly bought for twelve cents per package. It is now quoted at thirty-eight cents. I trust that the school meeting may be no less generous in the matter of appropriations than it was last year.

There are many things in connection with our work in the school room which I might mention. But the best way to find

out what is being done in the schools is to visit schools, and to visit often, and not wait until some misunderstanding has arisen. I do not need to say how very essential it is to secure the best results that there be cooperation on the part of the school and home. And let me say in this connection that what we need in Belmont is a live organization which would bring the teachers and parents and interested citizens together for social purposes and for the intelligent discussions of school matters.

I wish to thank all who have had a part in making the years work pleasant for me.

Respectfully submitted,

CHANNING T. SANBORN, Supt.

## Auditor's Report.

---

I have carefully examined the accounts and statements in this report by the selectmen, highway agents, town treasurer, treasurer of the school districts, treasurer of the public library, the school board, town clerk, commissioner of water works, and find the orders issued represented by receipted bills, and the different items of the cash paid out by the several treasurers sustained by proper vouchers, and all accounts correctly cast. I have examined the books of the tax collector and find he has collected the balance of the 1913 tax, \$49 52, the bal of the 1915 tax, \$681 68, the 1916 tax the sum of \$17,638 09, also \$73 65 for int. All of which he has turned over to the town treasurer for which he holds the proper receipts.

ALBERT A SMITH, Town Auditor.
